

# VERIDIAN HEALTHSTREAM

## Project name

"Implementation of application software to improve the competitiveness and efficiency of the Applicant's business", project code KK.03.2.1.19.0729

## Project Overview

Upon the project completion, the company acquired business solutions for implementation in various segments of its business, as well as the necessary servers needed for software implementation.

The project included the following activities:

- a) Implementation of application software in the business,
- b) Project management,
- c) Promotion.

## Project Goals and Objectives

The general goal of the project is to strengthen its own business by introducing control of the production and business process in order to:

- a) improve production and business processes,
- b) reduce costs incurred in the production and business process,
- c) implement a more efficient system for the production of information solutions
- d) increase the quality of delivered information solutions.

Completion of this project has an impact on the processes of logistics, marketing, sales, strategic planning, asset management and product manufacturing processes for the medical sector, which will ultimately result in income growth and employment of the new employee.

Sustainability of results after the completion of the project will be realized through several different aspects:

- a) financial sustainability;
- b) maintenance of business solutions;
- c) commercial sustainability;
- d) marketing activities;
- e) the impact of the project on the target groups.
